

Snohomish County Local Voters’ Pamphlet

Primary - August 5, 2014

From the Auditor

July 2014

Dear Snohomish County Voters,

We can do better! Did you know that only half of the people that vote in the November general elections typically vote in the August primaries? The primary serves as a critical step in determining the final two candidates who will proceed to the general election in contested races. The primary also contains important ballot measures that may affect your local community or perhaps impact your life as a Washington state resident. Primaries are important!

The 2014 Primary local voters' pamphlet is a great source of information to help you make informed decisions. This pamphlet includes statements and photos from candidates who are running for office; pro and con statements for local ballot measures; instructions on how to properly vote your ballot; and locations of return ballot drop boxes and accessible voting sites.

As you prepare to vote your August 5th Primary ballot, I encourage you to be an informed voter by:

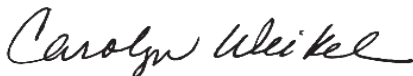

- familiarizing yourself with the races and issues that appear on the ballot,
- reading and following the ballot directions,
- not writing in silly names for office,
- signing your ballot envelope, and
- returning your ballot as soon as practical.

To help you stay on top of voting deadlines and other pertinent election information, sign up to receive elections reminders from the Auditor’s Office via email or text message. Simply visit www.snohomishcountywa.gov/signup and select the categories of news and information that interest you.

Election Day is Tuesday, August 5th! Vote and return your ballot well before the August 5th deadline to ensure your ballot is efficiently and accurately counted.

Please contact our Elections and Voter Registration Division staff at 425-388-3444 if you have any questions about participating in the August 5th Primary.

Sincerely,

Carolyn Weikel

Congressional District 1

Congressional District 1, shown in blue, covers much of Snohomish County east of I-5 and includes Bothell, Darrington, Gold Bar, Granite Falls, Index, Lake Stevens, Mill Creek, Monroe, Snohomish, and Sultan as well as large portions of King, Skagit, and Whatcom counties (not pictured).

Congressional Representative

Congressional representatives serve as local representatives in the legislative branch of the federal government. Representatives are elected to two year terms. Responsibilities include but are not limited to:

Drafting, introducing and voting on federal legislation; helping constituents resolve problems with the federal government; understanding, articulating and taking positions on issues; educating and informing constituents about legislation; representing and advocating for the district's and constituents' interests; reviewing, amending and adopting a budget presented by the executive branch; and participating in the oversight of the executive and judicial branches of government as bound by the constitution through hearings and oversight committees.

U. S. Representative - 2 Year Term

John Orlinski
(Prefers Republican Party)

Other Professional Experience: DSHS Social Worker, 1991 -; Financial Planner, Metropolitan Insurance Company, 1989-1991; Assistant Professor, Political Science, Maritime University, Poland, 1982-1984.

Education: M.A. International Studies, University of Washington, Seattle, 1988; M.A. Business Administration, University of Szczecin, Poland, 1982.

Community Service: Board of Directors, Lake Washington College Foundation, 1991-2003; Vice-President of the Polish Baseball Federation, 2004-2010;

Statement: I am running for office as an independent populist Republican who is fiscally conservative and moderate on social issues. I want to represent the silent majority who feels their voices are not being heard by the establishment; people whose personal liberties, constitutional rights, and individual freedoms are under attack.

We need to review and limit Government mandates, intrusion, overreaching, and overspending which has resulted doubling our national debt over the past six years. We need to reinstate the Glass-Steagall Act, audit the Fed, and impose other restrictions on the banking system.

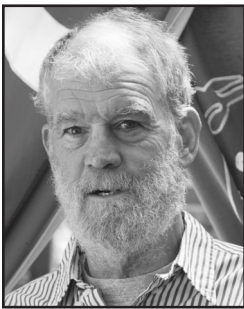

We need to lower unemployment levels by supporting small businesses, private enterprises, and farms. We need to continue reforming health care, environmental protection, and welfare systems. I would urge emphasis on technical and vocational education. I would like to see a limited immigration overhaul which would put emphasis on our labor needs.

Mike The Mover
(Prefers National Union Party)

Elected Experience: none

Other Professional Experience: household goods carrier (thirty-five years)

Education: high school, some college

Community Service: "friend to all" aka "the Deacon of the Bog"

Statement: I live in Mill Creek, on a farm. Down the road south of my residence is the remnants of a vast lake, which today is a bog. The 'bog' is a reminder of the direct impact of residential/commercial development over the past 100 years in this area. Today, the 1st Congressional District, south of the Snohomish river is being consumed by 'sprawl'. As a result, many areas which were wilderness and wetlands have given way to roads and developments I am intent to stop any 'sprawl' north of the Snohomish river that diminishes the beauty or capacity that is not consistent with the natural eco-system.

Suzan DelBene
(Prefers Democratic Party)

Statement: Growing up, my dad lost his job and our family struggled. Today, too many families are suffering from the same financial instability. This is why I'm fighting to give everyone the opportunity to succeed.

Results, not rhetoric. In a dysfunctional Congress, I've worked across party lines to get things done – helping write a Farm Bill that benefits Washington farmers while reducing the deficit; successfully rolling back the doubling of student loan rates; and passing legislation to expand job-training programs for food stamp recipients to become self-sufficient. When a portion of the I-5 bridge over the Skagit River collapsed, I worked quickly to secure emergency funds to rebuilding.

Expanding Economic Opportunity. I'm fighting to raise the federal minimum wage and extend unemployment insurance for jobseekers. I'm working to increase our investments in schools, roads, and job creating research.

Standing up for our shared values. I'm fighting to protect Social Security, Medicare and a woman's right to choose. To protect our privacy, I cosponsored a bill limiting government surveillance and ending bulk collection. I support reforming our tax system to make it simpler and fairer.

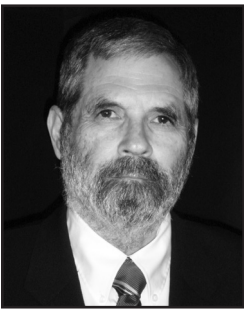

Working together, we can strengthen our economy, create jobs in Snohomish County and expand opportunity.

Edwin F. Moats
(Prefers G.O.P. Party)

Elected Experience: Home Owners Association Board

Other Professional Experience: Assistant District Attorney/Assistant Attorney General/Legislative Analyst

Education: JD Law/MS Mathematics/MA Philosophy

Community Service: Adult Sunday School teacher/ Boy Scouts

Statement: Our nation is in deep trouble, and this election is about choices. Some say there is no difference between Republicans and Democrats. But Obamacare was passed without a single Republican vote. It is Republicans who seek energy independence, while Democrats block the Keystone Pipeline, suppress the oil industry, and destroy the coal industry. Obamacare is hammering small business, the primary engine of job creation in the American economy, forcing it to cut jobs and hours. We must rescue small business and the American worker from the clutches of Obamacare by the earliest possible repeal of this tragedy! My stance on immigration reform is "First secure the border, and then we'll talk about reform!" And when we talk, the principle guiding that conversation must be that the purpose of American immigration policy is to benefit America!

Due to my education and legal and legislative experience, I possess the skillset to serve in Congress. I am ready to hit the ground running on day one.

Thank you for your vote!

U. S. Representative - 2 Year Term (continued)

Pedro Celis
(Prefers Republican Party)

Other Professional Experience: Former Microsoft Distinguished Engineer; Former Professor of Computer Science, Indiana University; U.S. President's Information Technology Advisory Committee

Education: MS (Mathematics) and PhD (Computer Science), University of Waterloo, Canada

Community Service: Board Member, Stronger Families; Board Member, Washington State Hispanic Chamber of Commerce

Statement: I am running for Congress because I have lived the American Dream. Raised in a family of 6 by a single mom, I left Mexico as an adult with one bag of clothes and a box of books.

I came legally to the United States; I followed the rules, and became a naturalized citizen in 1993. I am an American by choice. Today, I see the American Dream under threat. Climbing the economic ladder has become harder not easier.

I will work to protect our freedoms, encourage innovation and promote economic growth.

We must replace Obamacare with a system that protects the most vulnerable, promotes personal choice and protects patients' rights.

We need leaders who can work with people of diverse views, who have compassion, who have touched hard times, and who know how to help others rise and succeed. I will vote, consistently, to promote opportunity, protect individual liberty, and get our nation's finances under control.

Please Vote for Pedro.

Elected Experience: Snohomish County Republican Party Executive Committee, Vice-Chairman Legislative District 44.

Other Professional Experience: Biochemist. R&D, lung and breast cancer therapies. Developed new DNA extraction method. My research disproved claims of a new form of DNA, helping redirect valuable research funding to other cancer laboratories.

Education: Biochemistry, Gonzaga University, Spokane.

Community Service: Veteran, U.S. Air Force. Raised critical research money for Seattle Children's Hospital. Officer, 501(c)3, Scottish-American non-profit organization. Awarded grants to children.

Statement: Replace ObamaCare with a free-market system that works; Lower taxes; Approve the energy pipeline; Balance the budget. "A rising tide lifts all boats". With a rising economy American's hard work is rewarded by increased workforce participation and higher wages for poor and middle-class families. "Income inequality" solved. "Give a man a fish, feed him for a day. Teach a man to fish, feed him for a lifetime." Stop giving people unlimited free stuff. Requiring them to 'learn to fish'. Elected Experience: Independent candidate in the Eighth Congressional District in 2008 and did not survive the primary.

Other Professional Experience: Licensed Professional Mechanical Engineer in Washington State; Licensed Chief Engineer for 1500 ton inspected vessels and commercial fishing industry vessels

Statement: Political gridlock is a present danger that exists in our nation and its caused in large part by the intent of the two major parties to dominate our legislature. This struggle tends to weaken the Constitutional checks and balances that protect the American electorate from dictatorial authority. Richard's Independent candidacy and support for other Independents is designed to provide the number of votes needed to deprive each of the major parties the ability to dominate. U. S. Representative - 2 Year Term

Mike Lapointe
(Prefers Independent Party)

Statement: I am a down to earth working class American willing to go to the mat for the middle class. I have been a factory worker, a union local Vice President and a passionate advocate for ordinary people. I have defended workers both on the picket line and in the halls of government. I am not beholden to, or afraid of the corporate powers. Their money will oppose my election. I am proud of that.

Corporations are not people! Money is not speech! Government policy should benefit the majority, not just the few. Banks should not gamble with their customers’ money. There must be a moratorium on foreclosures. Our taxes should pay the country’s bills while promoting a healthy middle class and discouraging obscene wealth.

Destroying our environment for profit must end. Student debt should not economically enslave an entire generation. Wages should not be taxed at a higher rate than investments. Work should pay a living wage. Our civil rights are what define America. They should never be compromised in the name of “security”.

This is what I believe. This is who I am. This is what I will take to Congress.

Another world is possible,
Thank you
Mike Lapointe

B.J. Guillot
(Prefers Republican Party)

Statement: Let’s face it. Many have been hurt by the lack of jobs, college debt, and too much government red tape. We all see the empty storefronts. We can now do something about it—together. Listening to you will be my hallmark. I care for you, your family, and our country’s future.

People are hurting. The middle class is shrinking. Too many jobs from Snohomish County have been lost or moved out of State. (Boeing, Kimberly Clark, Penguin Windows, Haggen, etc.) College graduates frequently find few or no jobs in their industry. They often face having to take two part-time jobs without benefits, just to make ends meet.

I will fight hard to bring jobs and businesses into our communities, starting by working together to reduce the burden of government regulations to make our district more desirable.

I will stand for reducing the debt, ending and keeping our country out of unnecessary wars, and restoring our civil liberties. The Patriot Act and domestic spying on our phone calls, emails, and web usage must stop. Representing you, I will do something about it!

I will bring listening, reason, and innovation to our community. I ask and thank you for your powerful vote.

Rick Larsen
(Prefers Democratic Party)

Statement: Growing up in Arlington, I learned the values of community, service and commitment.

These same values guide my work today. That’s why I’m fighting to raise the national minimum wage, combat income inequality, create jobs in our community, and fix our broken immigration system.

Income inequality has been called the “defining challenge of our time.” We need to rise to this challenge and help those seeking to break into the middle class. I’ll work hard in Congress to increase the national minimum wage and tie future increases to inflation.

I’m also working to put people back to work. The best way to create jobs is to invest in our transportation systems. Building and repairing our roads, bridges and highways will immediately create jobs and grow our economy.

And I’m committed to expanding opportunities for everyone to participate in our democracy and economy. We must reform America’s broken immigration laws by establishing a clear pathway to citizenship, destroy any barrier that prevents people who are registered to vote from exercising that right, extend unemployment benefits to the long-term unemployed, and support efforts that ensure marriage equality exists in every state.

It won’t be easy, but I’m up for the challenge.

Statement: I am running for Congress to promote green energy technology, AIDS research and fiscal responsibility. We must make it a priority to develop better treatments for HIV patients and an effective HIV vaccine. Research should concentrate on both an individual HIV/AIDS vaccine for those already infected and a general HIV vaccine to prevent the spread of this disease. A general HIV vaccine to be based on use of HIV virus which has been killed through exposure to radiation or ultraviolet light. This will not alter the underlying structure of the virus and be used as a basis for a vaccine. The vaccine based on the killed virus will allow the body's own immune system to build up antibodies to protect people from contracting HIV. Individual vaccine should be developed to treat individuals who already have the disease. Infected white T-cells from individuals should be extracted and the T-cells ruptured and the T-cells ruptured and the viruses are kill by exposure to radiation or ultraviolet light. The individual own cells are used as HIV vaccine.

Statement: Like you, I'm frustrated by open disregard for our laws. Not just by criminals but by elected Republicans and Democrats! "Rovian" Republicans now plot with House Democrats to betray every American worker with amnesty and a massive increase of "high-tech" worker visas. Offshoring and 10-20 million unauthorized workers inside the U.S. abetted by companies like McDonalds who refuse to E-Verify to weed out those palming stolen Social Security Numbers have depressed your wages. As I have served you by sponsoring Washington's E-Verify citizens initiatives, I will co-sponsor E-Verify legislation in Congress that simply fulfills a condition of Reagan's 1986 amnesty. E-Verify adoption will reduce Washington State's \$2.7 Billion annual taxpayer subsidy to the human trafficking business. Please consider the research: <http://www.respectwashington.us/FAIRWA2012.pdf> You deserve a Congressman strong enough to oppose the self-dealers inside both parties. Statement: JOBS: Un-sabotage our labor market! Abolish the job-destroying minimum wage. The range of prices and wages should be set by Supply and Demand, not by a minimum wage that makes it illegal for slower and disadvantaged people to work. Please, notice the unemployment and crime created by the current minimum wage. Free people should have the right to accept whatever wages the market will pay them. For a higher living standard, make it legal for homeless and other troubled people to accept low-paying work.

Race order is set by state and local laws and rules. Candidate order is determined by a random draw for each race in the Primary and by the number of votes received for the General Election. Community Service: Active member Civil Air Patrol.

Statement: 25 year resident of Oak Harbor. We Need to legislate accountability. To identify people in government and be able to hold them accountable for areas under their responsibility. There seems to be a lot of “finger pointing” and “Passing the buck” with accountability being a distant second thought. Taxpayers deserve to get fair value for their taxes, rather than pay for those who have lost their concept of public service and are just around to collect a paycheck.

My main focus will be proper organizational accountability. This has always proven to be the basic foundation of success.

He will put his collaborative style to work and secure funding for Community Transit, Metro, and our roads and bridges. Having served in the military and worked on housing, Chris will champion benefits for the vulnerable, including vets, seniors and kids. Chris is pro-choice—it's shameful that the Senate has twice failed to pass protections for women's health care. Robert Reedy
(Prefers Republican Party)

Elected Experience: No elected positions, only appointed positions

Other Professional Experience: Licensed Insurance Agent

Education: Edmonds Community College AAS 1975, 2008, 2010 Central Washington University BA 1987 Pacific Western University MPA and Ph D. University of Washington Mini-Medical School

Community Service: Mountlake Terrace Library Board (chairman); Park Board (in another city)

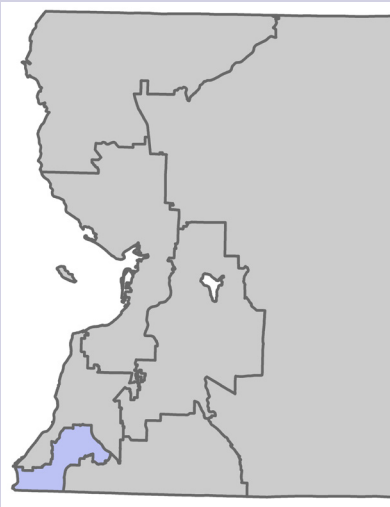

Statement: I am opposed to a state income tax. The idea that the state does not take in enough money is not the answer, let's be wise and frugal with the taxpayers money.

The most important issue facing the people today is the slow economy. Many have yet to realize the recovery, and time is not a luxury for most families. We need economic reform and soon. We need jobs, good jobs that pay a family wage. Government needs to work with business, including small business to make good jobs happen. If we have to change the rules to make good things happen, let's do so. A higher fuel tax will just raise the price of groceries in a time that many families cannot afford price increases.

James Robert Deal
(Prefers Democratic Party)

Other Professional Experience: Lawyer since 1978

Education: University of Washington Law School

Statement: My goals are to: •Enact a minimum wage law modeled after Seattle's. •Build a fiber optic internet as Mount Vernon has done. It will be a business magnet. •Fight coal trains. They will deposit mercury along our shoreline, ruining our fisheries. •Rebrand Snohomish County as "The Organic County" and ban the growing of GMO crops as counties in California and Oregon have done. Our farmers will get rich. •Stop PUD purchases of electricity from the dirty, dangerous, and expensive nuclear power plant at Hanford. •End the spraying of Roundup on roads and streets. •Lower the voting age in County elections to 16. •Ban carry home plastic bags. •Establish more bicycle routes. Cycling is a form of mass transit. •Insure that open meetings are really open. •Stop the adding of dental chemicals to our drinking water. This filth is the toxic waste scrubber liquor from the smokestacks of phosphate fertilizer plants. It contains lead, arsenic, mercury, cadmium, and thallium. It leaches lead from plumbing. It is a chemical company fraud like DDT, Roundup, and tetraethyl lead. It harms fetuses and infants the most. There are better ways to fight tooth decay.

Community Service: Snohomish County Tomorrow.

Statement: I believe that change is inevitable for any organization, if it is to remain progressive. The Snohomish County PUD has made remarkable strides in conservation efforts, and now it is time to push toward renewable energy sources. I am extremely passionate about renewable energy. And I am ready to lead the citizens of Snohomish County toward self reliance. It is time for new “energy” on the board of commissioners. I want to accept the challenge of identifying the renewable resources, finding a way to make them cost effective, and to move the PUD into a higher standard of excellence. A combination of hydro, solar, wind, tidal, biomass and biogas will provide us with a framework to blend each of these renewable resources together for the most efficient and cost effective use. New concepts like Modular energy storage architecture have great potential to further innovate the PUD, and I will help to integrate these systems. Change is inevitable. Change is good. New energy is what I will bring to the PUD Commission. I would appreciate your vote.

Dave Aldrich
(Non Partisan Office)

Statement: Since I assumed office in 2003 the Snohomish County PUD has survived the tumult of Enron and sharp rate increases to thrive as a financially stable, pioneering utility of international renown. We have accomplished this remarkable turnaround through the tremendous efforts of our general manager and a visionary board focused on both keeping the lights on and providing for current and future energy needs, emphasizing conservation, renewable resources, and innovative technology. Twelve years later there is still much to do, from completing a smarter distribution grid to discovering better ways to use electricity more efficiently. Though we continue to set new annual records in conservation acquisition, the utility can and must do more, especially in the challenging multi-family housing sector. We are justifiably excited about storage technology and its promise of fully integrating intermittent generating resources like solar and wind. We are also looking forward to developing and implementing a new automated outage management system. A personal mission statement has informed my approach to policy: To reliably deliver affordable electricity and water in a socially responsible manner. It has served me well. Other Professional Experience: I have worked for a variety of high tech companies. I left Microsoft in 1996 after working there for most of 10 years to start my own company, which I have operated since then. I own and operate a farm in District #1 and have been farming full-time since 2006 as well as operating my other businesses.

Education: I started working as a computer engineer at age 15. I am primarily self-taught but have attended classes at Seattle Central Community College.

Statement: The PUD has the tendency to spend hundreds of millions of dollars on speculative projects. We’re doing that right now with the proposed dam on the Skykomish river and experimental tidal power generation systems.

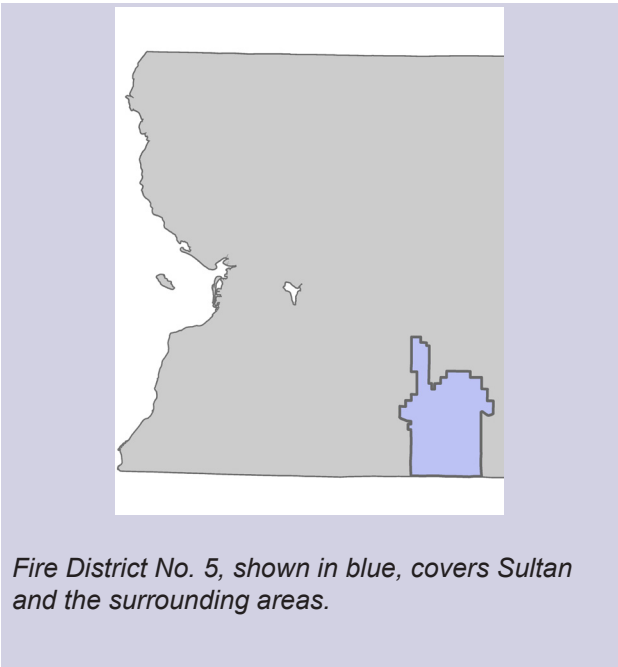

With more than 98% of the PUDs power already sustainable, I question the need for expensive or experimental power generation. New power generation projects should be viewed very carefully - in the past they’ve cause rates to rise with no benefit to the ratepayers at all. ENRON AND WPPS are two examples.

District #1 needs a representative who lives where most of the customers represented do and will see to it that the PUD sticks to its basic core competency: Reliable power at affordable rates.

Fire District No. 5

Fire District No. 5, shown in blue, covers Sultan and the surrounding areas.

Proposition No. 1

Ballot Title

Levy of Tax for Maintenance and Operations

The Board of Commissioners of Fire Protection District No. 5 adopted Resolution 2014-01 concerning levies for maintenance and operation support for a four-year period. This proposition would authorize replacement of the expired 2009 M&O levy with a tax upon taxable property within the District, in excess of state tax limitations, in the amount of \$625,000 per year for four consecutive years to be collected each year beginning in 2015 at an approximate levy rate of \$.99 per thousand dollars of assessed value, with the actual levy rate to be based on assessed values at the time of the levies. Should this proposition be approved?

Yes
No

Explanatory Statement

If approved by the voters, the District will be authorized to levy a maintenance and operations excess levy (M&O Levy) in the sum of \$625,000 dollars per year for a four year period. The M&O Levy will replace the expiring 2009 voter approved M&O Levy. Based on current assessed valuations the District estimates that the tax levy rate necessary to generate these funds in 2014 will be approximately \$.99 per thousand dollars of assessed valuation. In subsequent years the levy rate will decrease if assessed values increase.

Even with the expiring 2009 M&O Levy, because of declining assessed values, the District is receiving approximately \$200,000 less in tax revenues than it received in 2011. The proposed M&O Levy will replace the expiring M&O Levy funds and the funds lost to declining assessed values. The M&O Levy will allow the District to maintain the operation of the fire department at current service levels.

If the levy is approved, the maximum tax per \$100,000 assessed valuation is estimated not to exceed \$99.00 each year or approximately \$8.25 per month (compared to approximately \$59.00 per year and \$4.90 per month for the expiring M&O Levy), for fire protection rescue and emergency medical services.

Statement For

Statement by: Chad Avery, Ann Marie Bunch, Amanda Lewis

The Fire District Levy, approved in 2011, expires in 2014. Unless renewed, District revenue will decline by \$600,000 when compared to 2011. Without this levy it will not be possible to maintain firefighters on duty 24 hours as we presently do.

Today, in this 72 square mile Fire District, emergency vehicles are enroute to medical calls in less than 2 minutes and fires in less than 4 minutes. In the past, when volunteers responded from home it could take 8 to 12 minutes to get emergency vehicles enroute.

It is critical to have firefighters available for immediate response day and night, in bad weather or natural disasters, and on weekends and holidays to do everything humanly possible to protect lives and property.

In spite of the lean years, Fire District 5 has continued to improve service. This year an evaluation by the Washington State Rating Bureau resulted in an unprecedented 3 point improvement in the District's Fire Rating, lowering the fire insurance premiums for many residents of the Fire District.

Firefighters are asking for our help to renew the M/O levy for another 4 years. This is a modest request to maintain a vital service. If approved taxes levied for the Fire District will be approximately the same as in 2011.

Our firefighters can be there for us only if we are there for them. Please join this Committee in voting yes for life safety and fire protection.

Monroe Transportation Benefit District

Monroe Transportation Benefit District, shown in blue, has the same boundaries as the City of Monroe.

Proposition No. 1

Ballot Title

Sales and Use Tax for Transportation Improvements

The Board of the Monroe Transportation Benefit District adopted Resolution No. 002/2014 concerning a sales and use tax to fund transportation improvements. This proposition would authorize a sales and use tax of two-tenths of one percent (0.2%) to be collected within the District in accordance with RCW 36.73.040(3)(a) and RCW 82.14.0455 for a term of ten years. Such revenues would be used for the purpose of funding preservation of City of Monroe streets, including pavement repair, overlay, chip seal and patching, as identified in the Washington Transportation Plan for 2007-2026 and Ordinance No. 009/2012. Should this proposal be:

Approved
Rejected

Explanatory Statement

If approved, Proposition No. 1 would provide dedicated funding to preserve existing transportation infrastructure within the City of Monroe, by authorizing the Monroe Transportation Benefit District to levy a two-tenths of one percent (0.2%) sales and use tax for ten (10) years. This is equal to two cents (2¢) for every ten dollars (\$10) of taxable sales in Monroe.

This sales and use tax is estimated to generate an average of approximately \$826,000 of additional revenue for roadway preservation each year for ten (10) years. The additional revenue from this sales and use tax can only be spent on the preservation of existing transportation infrastructure. This includes but is not limited to both fixing potholes in streets that are “failing” as well as conducting preventive maintenance to prolong the life of existing roads.

More information regarding the Monroe Transportation Benefit District and the proposed preservation projects is available at www.monroewa.gov/tbd.

Statement For

Statement by: Tami Beaumont, Collette Carpenter, Erin Agnus Snapka

Proposition No. 1 is not a property tax but a shared use and sales tax to help pay for repairing and maintaining Monroe's streets. By asking visitors to pay their fair share for traveling on our roads, residents don't shoulder the entire burden. Monroe is a growing community and a crossroads for three major highways. Each day, thousands of residents, commuters and outdoor enthusiasts drive on our streets. The wear and tear is showing; potholes and cracked pavement are making our streets unsafe for drivers, pedestrians and bicyclists. Our streets have deteriorated after decades of constant use and federal and state funding is limited.

Proposition No. 1 would make it possible to repair our aging streets and to ensure the safety of residents and visitors traveling in and through Monroe. Repairing our infrastructure now, in today's dollars, is both timely and fiscally responsible. Repairs can be locked in before costs for labor and materials increase. The sale and use tax would raise Monroe's sales tax from 8.7 percent to 8.9 percent. This is still below the sales and tax rates of cities like Bothell, Edmonds, Lynnwood and Mill Creek. We are asking for a 10-year commitment to spread the expense among as many road users as possible.

No one wants to pay higher taxes, but Proposition No. 1 is fair, necessary and makes sense long-term. Please join us in taking this positive step forward to preserve safe streets and neighborhoods, property values, quality of life and economic prosperity for Monroe.
